

SIP Trunking with uCloud

SIP Trunks makes it possible for you to communicate anywhere as long as you are connected to the internet.

uCloud will connect your SIP trunk lines to our Cloud platform. No more worrying about the cabling infrastructure to your premises to accommodate your telephone lines; all you require is an Internet connection to connect to an on premise PBX system.

With our LTE package you can have up to 8 SIP trunks depending on your needs

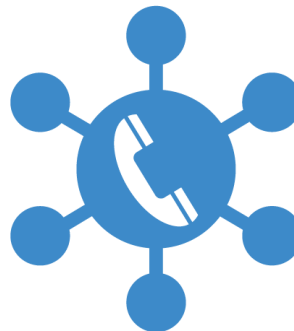

Either on a contract or no contract.
You get to choose!

*If you have your own Fibre connection, run as many SIP Trunks as you like on our uCloud platform

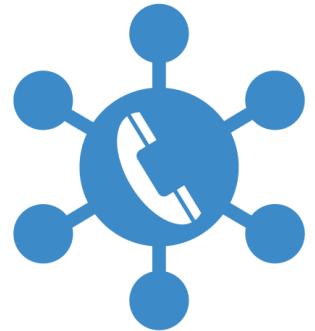

*Dependant on Fibre connectivity

or

4
SIP trunks

8
SIP trunks

**Plus a uCloud LTE Router Bundle to connect your SIP Trunks to our uCloud platform
